## Provision of Health Care for Persons With Developmental Disabilities Living in the Community: The Morristown Model

These centers must, therefore, be established on an inter, disciplinary basis. Because care of the mentally retarded has traditionally been isolated from centers of medical and nursing education, it is particularly important to develop facilities which will increase the role of highly qualified universities in the improvement and provision of services and the training of specialized personnel. The authority citation for subpart P of part 404 continues to read as follows: End Amendment Part Start Authority Authority: Secs.

ERIC

We can spare them and their families much of the misery which mental illness now entails.

ERIC

I have, in addition, directed that the Manpower Development and Training Act be used to assist in the training of psychiatric aides and other auxiliary personnel for employment in mental institutions and community centers. Every year nearly 1,500,000 people receive treatment in institutions for the mentally ill and mentally retarded.

A fourth commenter said that while the change in terminology may make people feel good, the new term is not as descriptive as the current terminology. We must not relax our effort to push back the frontiers of knowledge in basic and applied research into the mental processes, in therapy, and in other phases of research with a bearing upon mental illness.
