Site management is responsible to encourage all production teams to do their daily safety briefing.

#### What is Safety?

This is more than just a safety issue, Harrington said — stockpiling a huge cache of unwanted chemicals can be illegal. Know the purpose of the training, and ensure the appropriate training is given for each individual worker based on his or her needs. Please Note: The information outlined in this document is intended for guidance only — and should not be regarded as a definitive legal statement.
