Tankovy proryv: sovetskije tanki v boyakh...

It would be very interesting to see similar comparison for a soviet aircraft. Have to do a calc to see how this goes for weight savings, although even tanks with vertical armour had three pieces Comet, Churchill.

Tankovy udar. Sovetskije tanki v boyakh. 1942

The T-34 was revolutionary in its use of sloped armor. Many times our Panzers Were split open or the complete commander's cupola of the Pz. Alex BV In a manner of speaking you are right to say the T34 didn't break down as often as the german Pz V or VI.

Christos military and intelligence corner: WWII Myths

Anonymous I know perfectly well how Steve Zaloga alter and rewriting history by lying about penetration figures. Comrade Stalin gave directives to engineers, to the People's Commissar comrade Zaltsman, to factory's CEOs and ordered them to fix all defects in the shortest time. Its disadvantages were that it took a lot of internal space and it had poor stability in rough terrain.

Nemetskie tanki v boju: Panzer,...

In difficult terrain, on the march, and during the attack, in which the Panzer must be frequently steered and turned, within a short time the steering clutches overheat and are coated with oil. Average height of a man in 40's was 5ft 6. There were very few machines that could machine a turret with a large turret ring +1.
