However, it could equally well be considered a group of closely related languages, rather than a single monolithic language—something which it has never been. Check out our list of Bible story videos. There are translations from into Hebrew as was done by , and in the 1300's.

## Hebrew

The guttural 'ḥ' was often omitted in Greek transcriptions in the Septuagint and was also softened in Galilean speech. The dialect is based on Achaemenid with a little influence from Arabic: 'ḥ' is often turned into 'n', and there are a few Arabic loan words. Why have you spared me? The language is written in a cursive script that is the precursor to the modern Arabic alphabet.
