

# Restoration and regeneration of epithelium and endometrium of the uterus of the guinea pig after parturition.

## - - Expression of Nerve Growth Factor (NGF) Isoforms in the Rat Uterus during Pregnancy: Accumulation of Precursor proNGF

Description: -

-Restoration and regeneration of epithelium and endometrium of the uterus of the guinea pig after parturition.

-Restoration and regeneration of epithelium and endometrium of the uterus of the guinea pig after parturition.

Notes: Thesis (M. Sc.)-- The Queens University of Belfast, 1931.

INTRAUTERINE FATE OF INVASIVE TROPHOBLAST CELLS

Erik Malmström, Maria Sennström, Anna Holmberg, Helena Frielingdorf, Erik Eklund, Lars Malmström, Ellen Tufvesson, Maria F. To determine whether the observed changes are due to a final remodelling or initial involution, further studies must be performed.

## Restoration of functionally impaired and degenerated sympathetic nerves in guinea

It is the primitive type from which others have been derived and is seen in pig, sow, mare, horse, cattle etc. After ten hours, without the excitement of coitus, he found these eggs in the tube.

INTRAUTERINE FATE OF INVASIVE TROPHOBLAST CELLS

In the following paragraphs we will provide more detail on the myometrial effects of OT, PGs and corticotrophin releasing hormone CRH.

## **importance of fibroblasts in remodelling of the human uterine cervix during pregnancy and parturition**

Thus, E2 increased tissue distensibility and maintained tissue strength regardless of injury. The number of described genes that are directly modulated by progesterone is small, and many of the effects of progesterone described in this review are likely to be indirect consequences of the action of as yet undescribed gene products. The increase in activity was due to increased expression of alkaline phosphatase mRNA, resulting in new alkaline phosphatase protein synthesis rather than increased activity of existing enzyme.

## **Organization of the guinea**

The changes occurring in the decidua menstrualis and the decidua graviditatis are certainly evidences of the action of a secreted substance.
