Timeline of major U.S. environmental and occupational health regulation

We explore in particular the circumstances under which the 'recycling' of revenues from environmental taxes through cuts in distortionary taxes can eliminate the non-environmental costs of such reforms. Penalty: A fine not exceeding K50, 000. We compare environmentally motivated taxes and various non-tax environmental policy instruments in terms of their efficiency and distributional impacts.

Environment (Water Quality Criteria) Regulation 2002

Section 3 analyzes the impacts of environmental tax reforms, concentrating on revenue-neutral policies in which revenues from environmental taxes are used to finance cuts in ordinary, distortionary taxes. The fees provide partial recovery of the costs incurred by the Environmental Assessment Office in delivering high-quality and timely environmental assessments.

Acts and regulations

The chapter indicates that in this setting general equilibrium considerations have first-order importance in the evaluation of environmental policies.
