The New Testament in the Original Greek: Byzantine Textform, 2005

THE NEW TESTAMENT was written in Koine Greek during the first century AD. And it will probably be very useful as a base for collation. Pierpont, The New Testament in the Original Greek: Byzantine Textform, 2005.

Maurice A. Robinson

Do want to know what happened to the church and the faith of people after 1980? We already sometimes experience difficulty with the size of the Nestle-Aland 27th edn, which is larger than the 26th, which in turn was larger than the 25th. This is the first time that this has been done and it allows one to begin to judge the nature of the Byzantine text in a more systematic way than was previously possible.
