The top three areas considered by nurses in their decision to stay at their current job, according to Palumbo, McIntosh, Rambur, and Naud, are recognition and respect, a voice in discussion and decisions, and performance evaluation. Research has indicated that providing BSN students with insight into the faculty role, as well as providing teaching experiences and encouragement may help students decide to pursue a faculty role.

The Nursing Shortage: Exploring the Situation and Solutions

Nurse shortages are not only in the ED. Lack of full support from the government and other stakeholders Admittedly, the nursing profession usually enjoys limited support from governments and other stakeholders in various economies. Unless issues related to the care environment are addressed, strategies to increase the overall supply of nurses are unlikely to be successful.
