## Fertility and Family Survey (FFS)

This Guide will focus on DHS surveys and the statistics produced in the reports; note that most DHS survey reports include all the statistics that are presented in the more narrowly focused AIS and MIS reports. The is designed to be used, in combination with classroom instruction and practical experience, to teach fieldworkers how to collect biomarkers for a DHS, MIS or AIS. .

## Families And Societies

When information on country of birth was not recorded, data on the number of persons having foreign citizenship was used instead. Of particular relevance for program and policy purposes are the series.
