## Dairy Production Systems in Ethiopia

**Sparse Arid Farming System** The system is mainly found in Sudan and Egypt. Because the wadis and their surrounding areas are considered part of the Pastoral Farming System, grazing within the actual Sparse Arid System is limited. It is located in the Horn of Africa, bordering six countries: Djibouti and Somalia to the East, Eritrea to the North and Northeast, Kenya to the South and Sudan and South Sudan to the West.

## Characterization of feeding systems in Ethiopia with a focus on dry areas

Also, such feed resources are deficient in minerals. The farms mostly use grade animals those with more than 87.

## Characterization of feeding systems in Ethiopia with a focus on dry areas

If yes, please click on the button Donate. Baltimore: The John Hopkins University Press; 1984. Livestock production is a year round activity, in comparison to crop production which is seasonal and therefore serves as security against the risk of crop failure while providing year-round employment to a huge workforce.

## A critical review of rural development policy of Ethiopia: access, utilization and coverage

Small grains such as wheat and barley are the main staples, complemented by peas, lentils, broad beans, rape, teff in Ethiopia and Irish potatoes. Crops grown during the belg season account for one-third of national crop production. Also, the use of chemicals such as pesticides, fungicides among others is limited since the high genetic diversity in the forest creates a balance between parasites and pests Ethiopian Coffee Exporters Association, 2016.

## Characterization of feeding systems in Ethiopia with a focus on dry areas

In the dry seasons, the quality of grazing pastures is very poor, with digestibility of approximately 40% to 45% and crude protein content of less than 5% Keba et al. The country accounts for over 3% of the global coffee market. Agriculture in Ethiopia Ethiopia is a landlocked country split by the Great Rift Valley.

### **Agriculture in Ethiopia**

It also facilitated the creation of dairy cooperatives to ease the provision of credit and technical and extension service to dairy producers. FAO Animal Production and Health Paper No.

### **Agriculture in Ethiopia**

Grazing on protected natural pastures on enclosed and protected areas also takes place.

### **Characterization of feeding systems in Ethiopia with a focus on dry areas**

Stakeholders comprising public extension workers, researchers, and representatives of NGOs along with FAO staff took part in the workshop where characterization of feeding systems were discussed, among other issues. Improving MRV for Agricultural emission reduction in the livestock sector: Ethiopian Dairy Sector, 07 Nov, 2016. IPCC Guidelines for National Greenhouse Gas Inventories, Volume 4 Agriculture, Forestry and Other Land Use, Chapter 10.
