Case Studies

Objective 3: Ensure that digital technology is a central consideration in all areas of curriculum and assessment delivery Curriculum Delivery The importance of our learners being able to use a variety of digital technologies and possessing a range of digital skills in today's increasingly digitised world is clear. For his client, Denny can use several media, delivery modes, and techniques to complete the project successfully.

Instructional Technology: Reaction Essay

He pointed to online learning initiatives such as — which connected primary school pupils with tutors in India and Sri Lanka to provide lower-cost online tutoring — as one scheme that had worked well. Michael Mann, an educationist at the innovation lab at Nesta formerly the National Endowment for Science, Technology and the Arts — a charity that promotes innovation — believed educational technology was struggling to fulfil its potential.

Design and Technology
