If this is the case, you can still use App Inventor with the emulator or you can use a USB cable to connect your device. Quattro was informed of the issues after the update.

DATART

You need to install the MIT AI2 Companion only once, and then leave it on your phone or tablet for whenever you use App Inventor. In addition, cell and row codes appear before table text in the Reveal Codes window, delivering a clearer picture of what font and alignment formatting has been applied. For more information, please contact the app developer.

Companion

Its contents do not need to be backed up and are not accessible in any way when OpenTX firmware is loaded. In this case contacting the developper had no effect J L Smith November 6, 2020 I really like this watch face. PLEASE NOTE the following important information before hastily jumping on it: Please back up your models and settings before upgrading so that you can go back to your previous version should you not like 2.
