Computer programs in basic language for atomic absorption flame spectroscopy

Dept. of Energy - NPTEL :: Chemical Engineering

Description: -

-

Dumas, Alexandre, -- 1824-1895.
Dumas, Alexandre, -- 1802-1870.
Dumas, Thomas Alexandre, -- 1762-1806.
Lesson planning.
Education, Secondary -- Ontario -- Curricula.
Biology -- Study and teaching (Secondary) -- Ontario.
Science -- Study and teaching (Secondary) -- Ontario.
Ghosts -- Fiction.
Bullying -- Fiction.
Bullying -- Juvenile fiction.
Atomic absorption spectroscopy -- Data processing
BASIC (Computer program language)Computer programs in basic language for atomic absorption flame spectroscopy

-

UCRL ; 52401Computer programs in basic language for atomic absorption flame spectroscopy
Notes: Prepared by Lawrence Livermore Laboratory, University of California, Livermore, Calif., under contract no. W-7405-ENG-48

Academic Module Manager 3.0

This module will be delivered fulltime or part-time for online modules. Flame atomic absorption spectrometry FAAS is widely accepted in many industries, which continue to utilize the unique and specific benefits of this technology. The non-binding electron microscope can absorb energy in either visible light or ultraviolet rays to excite the electrons to achieve a high molecular orbital.

Flame Atomic Absorption Spectroscopy

It gives a constant and intense beam of the specific analytical line or wavelength of the element. New Instruments Fully automatic atomic absorption spectrometers are now available.

Atomic Absorption Spectrophotometer Instrument

The 3 parallel slot burner used for those elements very difficult to atomize. Can analyse about 40 elements from periodic table.

Graphite Furnace Atomic Absorption spectroscopy.

Fuel and oxidant This is a very important part of the entire process to be remembered.
