Summary Of Chapters

This social work theory describes the personality as consisting of the id responsible for following basic instincts , the superego attempts to follow rules and behave morally , and the ego mediates between the id and the ego. . The model includes seven stages: assess safety and lethality, rapport building, problem identification, address feelings, generate alternatives, develop an action plan, and follow up.

Theories Used in Social Work Practice & Practice Models

Social workers assist clients in identifying patterns of irrational and self-destructive thoughts and behaviors that influence emotions.

Theory, Practice, and Trends in Human Services: An Introduction by Edward S. Neukrug

While a theory explains why something happens, a practice model shows how to use a theory to create change.
