What Harvard Can Do to Protest China's Communist Leader Jiang Zemin's visit.....

China sells nuclear arms to Iran. Jiang already answered this question to western reporters before he left China.

On JIANG Ze

There are so many signs that a nuclear event has taken place that some type of nuclear event remains the best explanation until a better alternative is provided. I mean, the total amount of money China is using to finance the military, compared with other countries, for example, your American, that Japan, etc.

Jiang Zemin

The Official US chain of command has not done this and I severely doubt that the unofficial chain of command did it either, but once you get these parallel chains of command you never know what may happen.

Jiang Zemin

For one thing, most of the east Asian countries, including South Korea, Japan, Singapore, Malaysia etc.

China Focus

Rumours have it that Jiang and his two sons are already in house arrest and that Jiang will be publicly prosecuted very soon when his crimes will be presented to Chinese people. The comparisons with the damage caused to Manhattan and Tianjin are quite clear. The fact that no object was filmed nor described nor heard impacting in Tianjin is not proof that there was no impact but it does place a massive question mark over any hypothesis that relies on this such as the rod of god and cruise missile hypotheses.
