Text mining War and Peace: Automatic extraction of character traits from literary pieces

Computer-supported Cooperative Work CSCW 2019. TABLE S10 Results of assessment of land cover classification accuracy, ICIMOD data sets, 1992.

Efficiencies and Antitrust: A Story of Ongoing Evolution

Discrepancies between the different data sets and classification systems highlight the challenges inherent in analyzing LULC change in mountain regions , which is why field verification, particularly visual analysis, as well as local knowledge, considerably improved the results obtained. Participants: University of Alicante, Technical University of Valencia, University of Barcelona, Technical University of Catalonia, University of Jaén, National Open University of Spain UNED.

NEALT

And, perhaps most remarkable was the Court's willingness to recognize the superiority of Sylvania's distribution system on the basis of improved sales performance rather than detailed cost analyses. Environmental Injustice: Childhood Lead Poisoning, Teen Pregnancy, and Tobacco, Journal of Adolescent Health 42 1 :43-49.

Muhammad Abdul

{peer reviewed} 2008 Kyrou, Christos and R. Key informants were selected through a snowball sample to interpret remotely sensed data.
