Global China: Great powers

For Russia and China, a more unified region would make it more stable, secure, and predictable. Central Asia offers an array of economic opportunities for major powers, including access and control of valuable natural resources, favourable terms of trade and efficient trade routes.

China, Russia, United States Compete Over Central Asia's Post

Secretary of State Mike Pompeo attend the four Indo-Pacific nations' foreign ministers meeting in Tokyo on October 6. Together, they worked to mobilize the widest possible support for the Nuclear Nonproliferation Treaty and get countries with nuclear capabilities to formally renounce nuclear weapons.

Great Powers in Asia

But all the while, the United States is entering what is likely to be a protracted struggle over who will decide how the world works in the twenty-first century. Please join us to discuss these topics at CSIS headquarters on November 9, from 1:00-2:30 PM. Framing the has two shortcomings.

China and Russia: the world's new superpower axis?

Over the last three decades, Central Asian states have been pursuing a multivector foreign policy to increase. Priorities have changed in the diplomatic arena, too. But thanks to initiatives under former U.
